

Wall Expansion Joint Profile

Product Information

Product Model	NZW
Product Type	Wall Expansion Joint Cover
Material	EPDM Rubber, Aluminum Alloy 6063 T6
Finish	Various Rubber Colors with AL. Strips

Introducing our NZW vertical profile, a remarkable solution for a wide range of vertical applications. Crafted from premium EPDM rubber with embedded aluminum strips, the NZW profile combines durability and flexibility to address the needs of both functional and aesthetic wall finishes.

Features and Benefits

High Movement Capacity

Engineered to accommodate substantial movement, this profile is ideal for vertical applications where flexibility is crucial. It effectively absorbs wall movements, ensuring long-term performance.

Uneven Wall Finishes

The NZW profile's exceptional flexibility allows it to adapt seamlessly to uneven wall surfaces, creating a sleek and uniform appearance even in challenging conditions.

Recommended for Parking Areas

With its robust construction and movement capabilities, this profile is highly recommended for parking areas, where both protection and aesthetics are paramount.

Customization in Rubber Colors

Available in various rubber colors, the NZW profile can be customized to match or complement wall finishes, providing a tailored and harmonious appearance.

Low Maintenance

Requires minimal upkeep once installed, ensuring a long-lasting, hassle-free vertical solution.

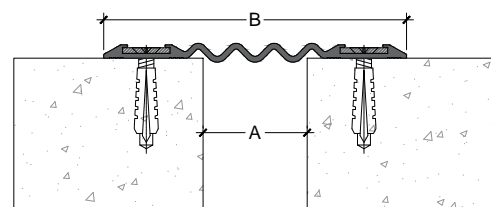

Easy Installation

Simplifies the installation process, saving time and labor costs.

Maintenance

- > Regularly inspect the expansion joint cover for signs of damage or wear.
- > Clean with mild soap and water as needed to maintain appearance.

Code	Gap width A(mm)	Visible width B(mm)	Total movement (mm)
NZW 25-40	25-40	140	40mm (+20 -20)
NZW 50-60	50-60	160	50mm (+25 -25)
NZW 75-100	75-100	200	70mm (+35 -35)
NZW 125-150	125-150	240	100mm (+50 -50)

Length

Standard length: 3 meters.

Installation

Please follow the installation instructions provided in the J-CAP installation guide.
